 Parties to whom this Price-List is sent, will please regard it as entirely confidential.

* * Having had numerous inquiries for a General Catalogue, from parties about embarking in the Druggist and Apothecary business, as well as from those already established in the trade, we have endeavored to bring together in this pamphlet as complete a list of articles in the line as practicable, with the prices attached, and hope the effort may meet the views of those for whom it is particularly designed.

It will be understood that these prices are subject to changes in the market, and are not binding if our stock of any article has become exhausted prior to the receipt of an order. The list will, however, serve as a general guide. Customers will have the benefit of any fall in prices.

W. H. S. & Co.

NEW-YORK, January, 1868.

W. H. Schieffelin & Co.

ARE SOLE PROPRIETORS OF

ANDERSON'S RHEUMATIC BALSAM.

This article has been in use for the last thirty years, and has proved a most efficacious remedy for the single disease for which it is particularly designed. The ingredients which enter into its composition are in themselves potent; but when combined as in this Balsam, they seem doubly valuable for their anti-rheumatic power.

It is not necessary to enter into any discussion as to what Rheumatism is, or by what it is occasioned. Every one who has felt a twinge of it, knows more about what it is, than the most learned thesis can enable him to understand, either as to its insidiousness or its painfulness. The sufferer desires relief; and this he may find in the use of this Balsam, which is worthy of a place in every medicine-chest, either in the family or on shipboard.

The general directions for its use may be found on the label upon each bottle. Of course these may be modified—so far as the dose is concerned—to conform to the age of the patient and the severity of the attack.

Price per dozen, \$ 4 50 } Stamped.

MR. WILLIAM R. WARNER, Pharmaceutical Chemist, Philadelphia.

MY DEAR SIR:—You have submitted for my inspection various samples of your sugar-coated pills. I have examined them carefully and can pronounce them both perfect and elegant. I speak from my personal knowledge of your character and ability, and I regard the length of your practical experience in manufacturing them as a specialty, as the surest guaranty of their excellence.

Yours, very respectfully,

JOHN M. MAISCH, CHEMIST, U. S. Army Laboratory, Philadelphia.

(Now Professor in Phila. College of Pharmacy.)

PHILADELPHIA, January 18th, 1865.
